1 BACKGROUND INFORMATION

1.1 Country overview

Lebanon is a country located in the Middle East. It has a surface of 10,452 square kilometres and a population of 5,432,000 inhabitants. The capital is Beirut and the currency in use is the Lebanese lira/pound. Lebanon gained its independence on 22 November 1943. The country has seen several conflicts unfold on its soil, the Lebanese Civil War (1975–1990), South Lebanon conflict (1985–2000), the *Second Lebanon War* in 2006, conflicts in 2007 and 2008 as well as spill over from the Syrian Civil War.

Lebanon is facing a major socioeconomic crisis due to increasing public debt and high fiscal deficit. In recent years, the economic and financial crisis lasting from October 2019 has been further exacerbated by the explosion of port of Beirut and the economic impact of the COVID-19 pandemic. Lebanon is facing an economic and financial crisis ranked among the worst economic crises globally since the mid-nineteenth century. Nominal GDP dropped approximately to US\$52 billion in 2019 to an estimated US\$23.1 billion in 2021. As a result, Lebanon was reclassified by the World Bank as a lower-middle income country, down from upper middle-income status in July 2022.

The decline in average income coupled with triple-digit inflation and a severe currency depreciation have negatively affected the population's purchasing power, with the effects of inflation disproportionately affecting the poorest as well as the middle class. The social impact of these crises is significant with a drastic reduction in provision of basic services, steep unemployment (29% in 2022) and an increasing share of the population living under the poverty line.

1.2 Sector situation

The main social assistance programmes in Lebanon are:

- 1) The National Poverty Targeting Programme, which provides monthly social assistance allowances to some 65,000 extremely poor Lebanese families. The programme is funded through international grants since 2014 and implemented by the UNFWP.

The National Poverty Targeting Programme (NPTP) was formally launched in 2011 as Lebanon's first poverty-targets social assistance programme that provides a package of assistance to the poorest Lebanese households (HHs) and has three components:

- i. **Health:** comprehensive health coverage for beneficiaries in public and private hospitals through a waiver of 10-15 percent co-payments for hospitalization.
- ii. **Education:** Registration fee waivers and free books for students in secondary (including vocational) public schools; and
- iii. **Food assistance** via the electronic card, launched in November 2014

The food assistance has evolved to provide unrestricted cash assistance to extremely poor Lebanese families, in USD, since October 2021. The health and education components have been traditionally covered by the government, but have been put on hold since 2020, due shrinking fiscal capacity to cover the costs of these two types of allowances.

- 2) The Lebanon Emergency Crisis and Covid-19 Response Social Safety Net Project (ESSN), which provides the same amount of monthly social allowances to an additional 147,000 extremely poor Lebanese families. The programme is funded through a concessional loan by the World Bank.
- 3) Other programmes providing social assistance to the vulnerable individuals (disabled), social services and social security benefits; these include an EU and Germany funded project providing cash for education for children enrolled in public education: social grants provided by UNICEF and ILO through EU funding, to disabled individuals with ages between 18 and 28 years old (allowances to start in Jan 2023); other types of regular social assistance provided through NGOs.

In addition, the social assistance programmes run in parallel with the social security programmes and the social services provided to the beneficiaries. These are the National Social Security Fund, private health insurances schemes administered by syndicates, other private social insurance schemes.

The programmes operate using different databases of beneficiaries, which do not communicate between each other.

Lebanon lacks a unified repository for data on Social Protection, which severely hampers distribution of protection. It becomes crucial to know the assistance received through different programmes for the beneficiaries of the different social benefits covered through the programmes in place. It is also very urgent to step up the efforts and financial investment of the government, the WB, the EU and other actors, in the sector by producing a clear picture of the capacities and the resources of the government to better plan and manage social protection in the country. This is also a political imperative under the IMF reform package.

Social assistance programmes are not fully aligned among themselves and with other social protection sub-sectors (services, insurance, promoting employment). A clear example is the two largest social assistance programmes in Lebanon, run by the government but implemented separately: the Emergency Social Safety Net (ESSN) programme and the National Poverty Targeting Programme (NPTP). A Single registry for Social Protection is of vital importance for such alignment.

1.3 Role of partner institution in the sector

The main function of the Ministry of Social Affairs is to provide social protection and assistance.

The Prime Minister of Lebanon formed an Inter-Ministerial Technical Committee on Social Policy, chaired by the Minister of Social Affairs, to lead coordination on Social Protection in Lebanon and ensure coordination among the Government, donors, UN, WB and NGO actors.

In addition, the Minister of Social Affairs has been appointed to lead the finalisation of the National Social Protection Strategy, drafted with the support of the UNICEF and ILO. The Minister will lead on reactivation of a structured dialogue on Social Protection, together with the Social Protection Coordination Forum (SPCF) that was set up for the Lebanon Reform Recovery and Reconstruction Framework.
